Cecilian Piano **Players**

Give Life to the Dumb Piano. How are you going to enter-

tain your guests on Thanksgiv-ing Day? The duty of host and hostess is arduous at the best

We're going to suggest a way to give them a royal treat—a way to entertain them with with the least possible effort on your part. It's no secret, though, for the plan we suggest has long ago been adopted by thousands of plano owners throughout the world.

Let us put a Cecilian Piano Player in your house to-day or to-morrow, furnish you with a musical library of all those masterpieces that only skilled musicians can play, and without the slightest knowledge of the art of piano playing you can produce these pieces with all the effective interpretation of a master

The Cecilian Piano Player is so simple that even a child can play it, yet so constructed that all the various expressions that a skilled musician gives to a piece can be produced, so as to win the applause of musical critics.

Don't you think that your friends would appreciate it if you could make your dumb piano speak as though it was inspired by an artist of international repute.

There's nothing in music ever composed that the Cecilian cannot play as accurately and as expressively as the human hands can

We're selling the Cecilian on the easy payment plan-a small amount down-and it's delivered for your entertainment; and you can immediately play your piano with all the skill of a musician who has spent a

fortune and years of time. We've a new attachment that goes with the new Cecilian that makes this piano player more than ever the peer of all others—the new in-terchangeable Tracker Board. With this attachment you can play music designed for any piano—giving you an opportunity to change pieces with any of your acquaintances who have a piano player. But, more than all else—it gives you access to

the piano playing musical library of the world. We'd consider it a pleasure to show you the Cecilian-like to have you step in and play it-see

how simple it is.

The new Baby Grand Cecilians are models of compactness, taking up less room than any other piano player—which is important to those who have small music rooms. Don't you want a Cecilian for your Thanksgiving Day "at home"?

—a good day to get acquainted with its merits.

The terms will be practically made to suit you and

made to suit you and you can en-joy it while you are paying for it. Incidentally we have a few Ce-cilians which have been used for a few months during the summer-condition excellent-on which we can save you \$50 each.
